LECTURE AT SACRED HEART.

To the students of the senior department,

ment, assembled last Thursday afternoon, in the history of the Sacred Heart academy, Mr. Don Maguire, the acknowledged geologist of the western country, gave a most interesting and comprehensive talk on one of the many subjects with which the learned gentleman is familiar. That it was thoroughly enjoyed by faculty and students was attested by the exclamations of regret when the lecturer concluded the discourse, and the general comment was indeed a compliment, "Oh, it was too short!"

With the nebular hypothesis as his theory, Mr. Maguire described scientifically the formation of Lake Bonneville, now so well known as our wonderful Salt Lake. Not for the facts alone was the lecture valuable, but for its suggestive quality which should prove an incentive to those pursuing the study of geology or the history whose circle it will soon enter. Were all scientific subjects presented as truthfully and as fascinating a manner, as Mr. Maguire laid this one before the students of the Sacred Heart academy last Thursday, then would all inquiry into Nature's God, and see in every lofty peak and lowly valley the Hand of Him who rules the universe.

ST. PATRICK'S LUNCHEON.

The Misses Nina Winters and Rhea Brown, provided themselves with charming hostesses at a luncheon served in the dining room of the Weber Academy on St. Patrick's day at 4 p. m., under the direction of Mrs. D. Ray Shurtliff.

Shurtliff, Miss Elizabeth Dallimore, Miss Eva E. Brown and Miss Ruby Cook, were received by Miss Winters and ushered into the dining room, where Miss Brown presided.

St. Patrick's colors were used in profusion throughout the dining room, the table being decorated with a center piece of green and white carnations in a tall green hat. Smilax hung in festoons from the chandeliers, and the table was lit with green candles illuminated the room in a soft light.

Miss Winters presided at the table, while Miss Brown did the serving. The guests found their places by little shamrock place cards.

The luncheon was served in five courses, at which a delightful game of "Storms of the year" was played, the "March winds" was played. Mrs. Holther was the fortunate player and was awarded a hand-painted china bread and butter plate.

Miss Cook then gave an interesting recitation, Tom's Little Sister, which she had just completed, declaring Miss Brown and Miss Winters delightful entertainers.

MRS. NETTIE MARTIN SURPRISED.

Mrs. Martin has been a most efficient officer of the Primary association in the Wilson ward for some time and her labors in behalf of the young people have been appreciated by the other officers, and in connection with the party Mrs. Martin was presented with a handsome little present as a token of the esteem in which she is held by the officers and members of the Primary association. Games and music were indulged in, and the merry crowd thoroughly enjoyed themselves until a late hour.

A nice luncheon was spread by the hostess for the following guests: Mrs. E. B. Ellis, Mrs. Annie Jones, Mrs. Albert Martin, Mrs. Elmer Robson, Mrs. Maggie Taggart, the Misses Eleanor Bingham, Ella Bingham, Delilah Bingham, Florence Bingham, Irene Duffin, officers of the Primary association; Messrs. IN HONOR OF MRS. PINGREE.

Mrs. Annie Pingree of Wilson was surprised Monday evening by a number of the workers of the Wilson Ward Primary association. Mrs. Pingree has been a most earnest and indefatigable worker in this organization, and the party was a testimonial to her for her earnest endeavors by her co-workers.

The Primary association is a very important organization of the Church of Jesus Christ of Latter Day Saints, and as a general rule the officers are called upon to perform a great deal of labor in connection therewith, time being given for the benefit of the children of the church. Mrs. Pingree has been a member and officer of the association for five years and is looked upon by those higher in authority as a most efficient worker.

Those who attended were enjoyably entertained with games and music, and about midnight an excellent lunch was served. At the conclusion of the repast Mrs. Minnie C. Stratford, wife of Counselor Frank W. Stratford of the North Weber Stake, in a very neat little speech, presented Mrs. Pingree, on behalf of the Primary association, a silver ladle. Mrs. Pingree responded feelingly and thanked the officers and other Primary workers.

The merry-making continued until after midnight when all dispersed, expressing the wish that Mrs. Pingree may long continue with the association.

Those present were: Mrs. Maggie Taggart, Mrs. D. B. Ellis, Mrs. Annie Pingree, Mrs. Edna Robson, Miss Delilah Bingham, Miss Ella Bingham, Miss Florence Bingham, and Miss Irene Duffin, officers of the Primary association; Mr. and Mrs. W. H. GRAND RECEPTION.

The reception accorded Professor William Allison, ex-superintendent of the Ogden schools Thursday night, was a very elaborate affair and one which bespoke the high esteem in which he is held by the teachers of the city schools. The reception was given by the teachers of the city schools, and the attendance at the function was exceptionally large,

there being present enough people to fill the Weber academy assembly hall. Those present were State Superintendent A. C. Nelson, Principal George Eaton of the Salt Lake High school, and the superintendent of the Utah county schools, Professor Childs. Among the home people who attended the reception were Principal Cross of the Ogden High school, principals and teachers of the city schools, David Eccles, Joseph Scowcroft, President M. S. Browning of the Ogden board of education, Superintendent Thomas of the State Industrial school, H. E. Tavey, ex-State Senator C. B. Hollingsworth, Dr. A. S. Condon, ex-President of the Ogden Board of Education H. G. Gwilliam.

A charming program of music and speeches was given and light refreshments were served, the evening's entertainment being concluded with a dance. Assistant Superintendent D. H. Adams in an appropriate speech in behalf of the teachers of the city schools presented Mr. Allison with a fine gold watch and chain as a token of esteem for him.

Principal Cross of the Ogden High school officiated as master of ceremonies, and with the evening's entertainment was a very happy one. The regular program given was as follows:

Solo, selected, by Gus Sander. "Fairies' Chorus," by girls' chorus of Ogden High school.

It is admitted that all this can be accomplished by right living, but there are so many people who either will not or do not know how to eat correctly that a tremendous amount of good can be done by the wise use of Peruna.

A stomach that has been frequently abused performs the function of digestion very lazily. Such a stomach allows the food to remain undigested for some time after it is swallowed. This leads to fermentation of the food. Sour stomach is the result. This goes on week after week, until the blood is poisoned with the products of fermentation. This condition is very apt to produce rheumatism.

It is not claimed that Peruna will cure rheumatism. Nothing will cure rheumatism, but correct living. But it is claimed that Peruna will assist a badly abused stomach to perform its work.

## Are Drugs Necessary? Do Drugs Cure Disease? Can Nature be Assisted?

If people were born right and afterwards lived right, there would be no use for medicine. Every doctor knows this. So do other well-informed people.

One thing more. When a person lives wrongly, or acquires bodily weakness by heredity, medicine can do only very little. Medicine cannot cure him. Only charlatans claim that medicines will cure disease. Medicines may palliate symptoms. Medicines may urge the powers of Nature to resist disease. Medicines sometimes cause the efforts of the human body to right itself against derangements. This is the most that medicine can do.

A man accidentally puts his finger in the fire. Instinctively he wets his finger in his mouth, then blows on it for the cooling effect. This is no cure. He knows it very well. But it makes it feel better for the time being.

People eat unwisely. This produces dyspepsia or indigestion. The only rational cure is to eat correctly. Yet if a palliative is at hand the pains of indigestion can be mitigated, the throes of dyspepsia assuaged. The medicine cannot be said to have cured. It simply palliates disagreeable symptoms. The cure must come through right living.

Take Peruna, for instance. No one claims Peruna is a cure for dyspepsia. But Peruna will stimulate the stomach to perform its function properly. Peruna will increase the flow of digestive fluids, without which digestion cannot be carried on at all. It will increase the relish of food, the appetite.

It is admitted that all this can be accomplished by right living, but there are so many people who either will not or do not know how to eat correctly that a tremendous amount of good can be done by the wise use of Peruna.

A stomach that has been frequently abused performs the function of digestion very lazily. Such a stomach allows the food to remain undigested for some time after it is swallowed. This leads to fermentation of the food. Sour stomach is the result. This goes on week after week, until the blood is poisoned with the products of fermentation. anthem by the choir: "The Your Sins Be as Scarlet." The Ladies' Mission Circle will be entertained, Wednesday, March 24th, at 2:30, by Mrs. Bessie Thompson, and Mrs. H. D. Zimmerman, at the parsonage. All ladies of the church and congregation are cordially invited to attend. Regular church prayer and praise service, Thursday evening at 7:30. Topic, "The Suffering Lord." Scripture: Isaiah LIII; Luke XXII:42.

HALEY'S COMET

In 1910 the evening sky will once more be visited by one of those mysterious and puzzling bodies known as comets.

Let us suppose that upon the approach of this Nebulous Wanderer, the Mariner's Compass should refuse to guide him on his way by swiveling continuously in dire confusion, for without this guiding instrument, no ships could sail the seas.

Suppose this comet would affect all the electric current now being used, the result would be a panic in our Commercial System. Without the aid of electricity, telegrams could not be sent over the wires, all the telephones would be without a sound, no railway trains be operated, all our street car system and automobiles at a standstill. People would be climbing stairs in all the buildings of our cities instead of riding up and down, as is usual in elevators, no wireless could be sent or received. The papers would, in the meantime, make humorous allusion to the kerosene lamps and candles of our Forefathers, which would be quite the fashion until our stary visitor should take his departure.

In the crowded cities, riots would occur, there being no way in which to call out the police. Fires could start and gain great headway without the aid of the electric fire alarm. All the powerful steam and water-power electrical plants would be turning their wheels, but no current generated until this mysterious visitor bids our little world adieu and again commences its seventy-five years of wandering out into the starlit sea of time.

Joy would take the place of consternation, and business be resumed, proving how much our lives depend upon the daily and modern uses of electricity, and especially the Electric Iron, which is rapidly displacing the old stove-heated one.

We furnish an up-to-date Electric Iron for \$4.00, guaranteed for one year, allow you the free use of the iron on thirty days' trial.

Utah Light & Railway Co.

D. DECKER, LOCAL MANAGER.

If a person would correct his habits, persist in right eating and temperate ways, undoubtedly the stomach would right itself, the blood would rid itself of the poison, and everything would be right. But as said before there are a multitude of people who will not or cannot adopt right methods of living. To such people Peruna is a boon. A dose before meals will assist the stomach to do its work. This prevents fermentation of the food, brings about normal digestion, and all the train of ills that follow indigestion disappear.

In other words, Peruna is helpful to those who live badly, or those who have acquired some chronic weakness. Peruna does not cure, but it assists the powers of Nature to bring about a cure.

The whip does not increase the power of the horse to pull a load, but judiciously used it stimulates the horse to use his powers at the right time, without which he could not have pulled the load.

This illustrates the effect of Peruna, or any other good remedy upon the system. Taken at the right time, it calls forth the powers of the human system to meet the encroachments of disease, and thus cuts short, if not entirely ends, the diseased action.

No one should ever attempt to substitute medicine in the place of right living. In the end such an attempt will prove a disaster. But an occasional use of the right medicine at the right time is a godsend, and no reasonable person will undertake to deny it.

Those who know how to use Peruna find it of untold value. By and by the world will get wise enough so that through correct living no medicine at all will be needed. But that time has not arrived. In the meantime, while the world is approaching that perfection in which all medicine will be eliminated, Peruna is a handy remedy to have in the house.

Slight derangements of the stomach; slight catarrhal attacks of the liver, the throat, bronchial tubes, lungs or bowels; these attacks are sure to lead to grave diseases, and can be averted by the judicious use of Peruna.

Wouldn't you like to read a few unsolicited testimonials from people who have used Peruna, and who stand ready to confirm the above statements concerning it. If so, address the Peruna Drug Manufacturing Co., Columbus, Ohio, and we will send some prepaid.
